Dear Mr. Dignard,

Re: 2008 Northern Ontario Business Award

I want to take this opportunity to congratulate you on your nomination for Small Company of the Year in Environmental services. It comes as no surprise to me that your company would be recognized in this category. We have had the privilege of working with your company for many years.

You have been our sole maintenance and service provider for our technology in Northern Ontario and we have had an excellent relationship together. You have been successful to offer a very good level of customer support for a very large territory from Thunder Bay to Renfrew and as far south as the Muskokas.

You have also represented our company very well with new sales and installations. As you know we offer the best treatment technology for onsite treatment and we have been very lucky to have you as a quality installer. Our technology, as with others, is very reliant on the quality of installation and you have provided an excellent job in this regard. In fact, I believe you have for several years, won installer of the year in the North from our distributor Ecoflo Ontario.

I look forward to your well deserved accolades in this category of Small Company of the Year. This is a recognition that is truly deserved.

Thanks

Andy McKinlay
